## **ECO CLUB (2025-26)**

**To** sustain life on Earth, first the Earth must be saved. Humans through their increasing need and greed have exploited the natural resources that the need to take measures to improve the declining condition of the planet has arisen.

**The motto of this club in our school is** to make the young minds aware about the air, water, soil and noise pollutions and how to save the environment for a better tomorrow. The club empowers students to participate and take up meaningful environmental activities and projects like Earth Day celebration, Tree Plantation drive, skits, poster-designing, Say No to Plastic campaign, cleanliness drive, morning assembly talks, Anti-Cracker Oath, quizzes, Green Olympiad, etc. The aim remains to spread awareness and promote sound and healthy environmental behaviour. And, all must remember- "No generation has a freehold on this Earth. All we have is a life-time tenancy - with a full repairing lease."

### **ECO CLUB COMMITTEE**
